SUMMARY

I am a Front-end Developer with experience in building responsive, user-friendly web applications using Next.js, React.js, Tailwind CSS and Figma. Skilled in UI development, performance optimization and scalable architecture, ensuring seamless experiences across devices. I take a detail-oriented approach, focusing on clean code, maintainability and efficiency.

With a strong foundation in web development principles, state management and accessibility, I apply algorithmic problem-solving and optimization techniques to create scalable, data-driven solutions. Experienced in component-based architecture, API integration and modern front-end workflows, I strive for efficiency and maintainability in every project.

Passionate about clean, efficient code and staying ahead of emerging technologies, I thrive in collaborative environments, contributing expertise while continuously learning. Eager to take on challenging projects that drive innovation and enhance user experiences in modern web development.

EXPERIENCE

Proton MMC – Baku, Azerbaijan Front-end Developer (Intern)

07/2023 - 09/2023

- Developed responsive, user-friendly interfaces using HTML, CSS, JavaScript, SCSS and Bootstrap.
- Focused on cross-browser compatibility and performance optimization to enhance user experience.
- Utilized CSS and SCSS to streamline and optimize styling, ensuring clean and maintainable code.
- Applied Bootstrap to implement consistent, mobile-first design across various projects.
- Gained hands-on experience in modern front-end development standards and best practices.

Khan Buta Group – Baku, Azerbaijan Front-end Developer (Intern)

03/2024 - 08/2024

- Developed interactive and responsive web interfaces using HTML5, CSS and JavaScript.
- Focused on creating seamless, cross-device user experiences while ensuring clean, efficient and optimized code.
- Designed and developed responsive web interfaces using HTML5, CSS3 and JavaScript, ensuring W3C-compliant accessibility and scalability.
- Strengthened technical knowledge and problem-solving skills by contributing to real-world projects and delivering high-quality solutions.

Kvadrat – Baku, Azerbaijan Front-end Developer (Intern)

08/2024 - 12/2024

- Developed projects using Next.js, React.js, Tailwind CSS, Bootstrap, Ant Design, Material-UI, and Figma, ensuring modern and responsive UI solutions.
- Collaborated with the team to design and implement functional, customer-oriented user interfaces that align with real business requirements.
- Utilized GitHub for version control, ensuring structured collaboration and streamlined development processes.
- Collaborated effectively with the team, contributed to the timely completion of projects, and enhanced the efficiency of the development process.

EDUCATION

Baku State University – Baku, Azerbaijan
Bachelor's Degree in Computer Science
GPA: 88.03

2020 - 2024

- Completed coursework in Parallel Algorithms, Artificial Intelligence (AI), Discrete Optimization and Databases, gaining expertise in algorithm design, system optimization and data-driven decision-making.
- Developed a strong foundation in computational efficiency, problem-solving techniques and database management, applying these concepts to real-world software development and scalable system architectures.

You can [view my bachelor's diploma](#) here.

Code Academy – Baku, Azerbaijan
Software Development Bootcamp | Certificate of Participation
#CodeForFuture Project

09/2023-01/2024

- Gained hands-on experience in HTML, CSS/SCSS, JavaScript, Bootstrap, React.js, Material UI, Ant Design, Redux Toolkit, Formik & Yup and MERN Stack.
- Learned TypeScript fundamentals, enhancing the ability to write scalable and maintainable code.
- Focused on modern front-end development best practices, building user-friendly and responsive web applications.

PROJECTS

Minor Business Group

Designed and developed a fully responsive website using React.js and SCSS.

Project Link: <https://minorgroup.az>

- Developed a modern, user-friendly web application using React.js, TanStack React Query, SCSS and i18n, implementing a dynamic UI and integrating i18n for seamless multi-language support.
- Integrated Google reCAPTCHA for enhanced security, optimized API data fetching and deployed the project in a high-performance, scalable production environment.

Aktaş Plastic Industry

Designed and developed a fully responsive website using HTML5, SCSS, JavaScript and Bootstrap.

Project Link: <https://aktasplastik.az>

- Developed a fully responsive, user-friendly website using HTML5, SCSS, JavaScript and Bootstrap, ensuring optimal UI/UX across mobile and desktop platforms.
- Implemented a structured product catalog, applied modern UI principles for accessibility and aesthetics and deployed the project in a stable, scalable production environment.

LANGUAGE SKILLS

Azerbaijani - C2

Turkish - C2

English - B1

SKILLS

Programming & Scripting Languages:

JavaScript (ES6+), TypeScript

Front-End Development:

React.js, Next.js, Redux, TanStack React Query, HTML5, CSS3, SCSS, SASS, Tailwind CSS, Bootstrap, Ant Design, Material-UI, GitHub

State Management & API Integration:

Redux Toolkit, Context API, RESTful APIs, Fetch, Axios

Security & Authentication:

Google reCAPTCHA, Web Security Best Practices

Soft Skills:

Team Collaboration & Agile Development, Problem Solving & Analytical Thinking, Continuous Learning & Adaptability

Web Performance & Optimization:

Performance Optimization, Code Maintainability & Scalability
